PROFILE

PERSONAL

Mr. Bragger is the founder, President and Chief Operating Officer for IAS, LLC. Seeing a need for improved methods and products within the military aviation community and civilian airlines, he founded IAS in 2005. Also a professional pilot, Mr. Bragger is a retired Lt Col (USAFR) with 27 years of military flying experience, primarily in the C141 Starlifter and the C5 Galaxy. He has flown for US domestic airlines including TWA, and worked in the UK as a Captain for a British Carrier. He is currently an A319/A320 Captain with Virgin America Airlines, based in San Francisco, CA.

Mr. Bragger was born in New Jersey in 1958 and grew up in the northwest portion of the state. After completing four years of college in Indiana, he was stationed in multiple US locations with the AF including New Jersey, Texas and Delaware where he now resides with his wife. Mr. Bragger has owned and operated several businesses throughout his adult life including a successful catering company.

OPERATIONAL EXPERIENCE

MILITARY PILOT — 1981-2007

USAF Active Duty 1981-1990, C141 Pilot. USAF Reserve 1990-2007, C5 Pilot. Mr. Bragger has concentrated experience in the management and development of Standards and Evaluations programs within the AF. He retired as Chief of Standards for the 512th AW, Dover AFB, Delaware. Among his responsibilities there, he created and managed an award winning Electronic Flight Bag program within Air Mobility Command.

CIVILIAN PILOT— 1993-PRESENT

Mr. Bragger has been a civilian airline pilot since 1993. He is rated on the DC10 and the A320 family of aircraft, and has instructed and evaluated in both the simulator and the airplane. He has over 10,000 hours of flying experience. Mr. Bragger was the start-up pilot for the successful carrier USA3000, and enjoys teaching Crew Resource Management skills in the classroom as well.

ENGINEERING EXPERIENCE

PROJECT ENGINEER — 1980-1981

Raytheon Missile Systems Division, Patriot Missile Program. Mr. Bragger put his engineering degree to use as a diagnostic software designer for the Patriot Missile System prior to entering active duty with the USAF.

PROJECT ENGINEER — 1993

ILC Dover, Frederica, Delaware, Space Shuttle Space Suit Project Engineer. Before his first position as an A320 First Officer, Mr. Bragger worked as a project engineer with ILC, designing and supervising the construction of Shuttle Space Suit body parts for NASA's astronauts.

EDUCATION

West Morris Central High School, Chester NJ, 1972-1976
Purdue University, West Lafayette Indiana — BSAE, 1980

PUBLICATIONS

1999 - Nullmeyer, Spiker, Bragger et al, "Measuring Crew Coordination in a Strategic Airlift Wing"

SKILLS AND INTERESTS

Mr. Bragger is proficient in multiple languages, and fancies himself a decent angler. He's not bad with a Ping Pong paddle either.
