PROFILE

PERSONAL

Mr. Weinmann is a founding member, IT specialist and developer for IAS, LLC. As the primary architect and designer for IAS' flagship product, Epubs, he helped launch IAS in 2005. Since then, he continues to lead new product development, refine existing products, and liaise as project IT lead with new and existing clients. His skills as a trusted developer spring from a bottomless well of creative passion. Also a professional aviator, Mr. Weinmann is an active AF reservist, continuing a family tradition of excellence in career military service with over 15 years of flying experience, primarily in the C17 Globemaster and the C5 Galaxy.

Born in Chestertown, Maryland in 1976, Mr. Weinmann grew up on Maryland's "Eastern Shore." After completing high school, he helped run the family metalworking business, and began military service at Dover AFB, Delaware in 1995. Upon earning a four year bachelor degree at the University of Maryland, he began formal employment in IT. Eric continues to reside in College Park, Maryland with his wife and two children.

OPERATIONS EXPERIENCE

USAFR — 2006-PRESENT

USAF Reserve, C17 Instructor Loadmaster. As a professional instructor crewmember, Mr. Weinmann was selected as initial instructor cadre for the conversion of his C5 flying squadron to the Air Force's newest, state of the art airlifter, the C17 Globemaster II. He has concentrated experience in training and in the management and development of information systems and flight manuals programs within the 512th Airlift Wing.

USAFR — 1995-2006

USAF Reserve, C5 Instructor Loadmaster. As a professional instructor crewmember, Mr. Weinmann was responsible for the direct training of C5 loadmaster crewmembers within the 512th Airlift Wing. He has accumulated over 100 hours of combat time in the second Gulf War and continued conflicts in Iraq and Afghanistan.

BUSINESS EXPERIENCE

IAS LLC — 2005-PRESENT

Developer, company founding member, IAS LLC, Wilmington, DE. During 2004, Mr. Weinmann organized a comprehensive development plan and product architecture for the Air Force's first true Electronic Flight Bag component, Epubs. Publishing the original software in 2005, and refining revisions over the next year in a beta test flying unit, the 512th Military Airlift Wing, Mr. Weinmann's efforts in that Wing were rewarded with an Air Mobility Command "Benchmark Program" grade during a 2006 major command inspection.

DATA CENTER TECHNICIAN — 2001-2002

Datacenter Operations, NTT Verio Webhosting, Springfield, VA. Mr. Weinmann put his computer skills to work building and maintaining servers.

EDUCATION

University of Maryland, College Park, Maryland — BS Geography, 2001

COPYRIGHTS

2005 - World-Wide Epubs

SKILLS AND INTERESTS
